

55 VOLANTE

XLVI
COFFEE MACHINES

XLVI 55 Volante

With 55 VOLANTE we want to provide the barista with as many tools as possible to allow him to **customize and control** the work. Independent coffee groups (saturated) allow the setting of different temperatures. Independent steam boilers allow the setting of different pressures. **Temperature probe and timer on the steam wand give full control to the barista** over the milk

steaming. We made it easy with 55 VOLANTE: all the ordinary and extraordinary maintenance can be carried out from the front of the machine, saving time and making the intervention easier.

The materials we used and their robustness make it a unique machine.

KEY FEATURES:

- Multiboiler / Multisteam
- P.I.D. heating system
- Display TFT touch screen (colors)
- Steam pipe probe temperature
- Timer for coffee extraction and steam
- Automatic switch off
- Energy saving
- Coffee counter
- Automatic washing
- Maintenance warns
- Light led
- **Smooth flow:** dispensing flow sweet and steady for an espresso made with velvety homogeneous texture
- **Fingerboard "easy use":** it's conceived in a very intuitive way and to be comfortable to the touch
- **Mug bowl:** the adjustable in 4 position grid facilitates the management of different sized cups.

TECHNICAL CHARACTERISTICS

2 groups

Net weight	92 Kg
Gross weight	113 Kg
Power	5000 W
Voltage	220-240 V
Size	
depth	62 cm
width	76 cm
height	60 cm

3 groups

Net weight	106 Kg
Gross weight	127 Kg
Power	6000 W
Voltage	220-240 V
Size	
depth	62 cm
width	96 cm
height	60 cm
