

POMPABASSA

XLVI
COFFEE MACHINES

XLVI Pompabassa

Pompabassa system is a device that allows to brew the coffees by **an adjustable** pump that pushes hot water with less pressure than an espresso machine.

Pompabassa extraction is a powerful **creative option for the operator** who, working on the induction parameters, can create a perfect filter coffee, a great compromise between espresso and

filtered coffee, or an alternative espresso with various aromatic facets.

The chance to modify pressure, flow and temperatures let the barista **customizes the extraction** in the most unique and exclusive way. Like an espresso group.

KEY FEATURES:

- **Materials:** steel, brass
- **Production capacity:** continuous cycle
- **Pressure range:** 0-5 bar (adjustable)
- **Water flow:** 0 / 1.5 lt minute
- **P.I.D. Heating system**
- **Lcd display**
- **Automatic switch off**
- **Energy saving**
- **Coffee counter**
- **Automatic washing**
- **Smooth flow**
- **Customizable**

TECHNICAL CHARACTERISTICS

1 station

Net weight	21 Kg
Power	1300 W
Voltage	220-240 V
Frequency	50-60 Hz
Size	
depth	55 cm
width	25 cm
height	45 cm
